Technical Skills

HTML5, CSS3, JavaScript, jQuery, Bootstrap, JSON, AJAX, Node, Git Bash. Additionally: Microsoft Access, Excel, Visio, VBA, SQL

Professional Experience

Senior Data Analyst – Rockit Solutions

Feb 2017 - Present

- Designed, built, and maintained Microsoft Access databases for normalization of custodian bank data, system trade processing, dividend reconciliation, client 8949 creation, auditing of system pricing work, and general operational support
- Created web scraping programs to aggregate daily bank positions and transactions for various financial institutions leading to decreased vendor dependency, increased data quality, and moderate cost savings
- Automated daily data custodian bank file downloads using Microsoft Access, PowerShell, and Ipswich scripting which lead to more timely downloads while making the process less prone to human error
- Interpreted bank spec files to translate raw bank data into useable imports for reconciliation of daily security positions and transactions of accounts for family offices, investments advisors, and trust companies
- Worked with the QA team to log and test system enhancements

Procurement Analyst – USI Insurance

Aug 2015 – Jan 2017

- Created a database for printer usage across the company generating valuable insight and trends
- Administrator of the American Express Card Program and was responsible for distributing cards, training employees, and performing a monthly audit to remain compliant with standards set

Claims Representative – Allstate Insurance

Jul 2014 – Aug 2015

- Assisted customers through the auto claims process ensuring the highest quality customer service
- Duties included: interviewing relevant parties, analyzing damage and accident scene to determine liability, negotiating with third parties
